AI Training Proposal

Introduction

Our Mission

CITS empowers students and professionals with cutting-edge AI training. Our programs blend practical skills with theoretical foundations.

Participants gain the expertise to implement AI solutions in real-world scenarios.

Meet Your Instructor

[Avinash "Avi" Jha](#) brings six years of specialized AI experience. He's trained professionals across multiple industries.

His hands-on approach makes complex concepts accessible to all skill levels.

AI Training Program Overview

Introduction to AI

Learn core AI concepts and explore real-world applications. Understand how AI is transforming industries today.

1

Deep Learning

Explore neural networks and their applications. Build your first deep learning model.

3

Hands-on Projects

Apply your knowledge through practical AI projects. Use industry-standard tools and technologies.

5

2

Machine Learning Fundamentals

Master supervised and unsupervised learning techniques. Apply algorithms to solve practical problems.

4

Industry Applications

Discover AI use cases in education, healthcare, and business. See the impact across sectors.

Pricing Structure

Sector	Package	Price
Schools	Basic (AI Fundamentals)	\$10 per student
Schools	Advanced (In-depth + Projects)	\$50 per student
Government	Group Training	\$100 for 10 staff
Corporate	Group Training	\$500 for 10 staff
NGOs	Complete Training	Free (CSR initiative)
Others	Customized As Per your Industry	\$1500
CEOs	A Training For CEOs	\$1000

Why CITS?

1 Expert Instruction

Learn from an AI specialist with over six years of experience. Benefit from industry-tested methodologies and insights.

3 Flexible Options

Choose from affordable, scalable training packages. We tailor programs for different sectors and needs.

2 Practical Focus

Apply concepts through hands-on projects using real datasets. Develop portfolio-ready skills that employers value.

4 Social Commitment

We provide free training to NGOs as part of our social responsibility. Everyone deserves access to AI education.

Next Steps

1

Contact Us

+856 20 97777940 (Eng)

+856 20 55 554 171 (Lao)

2

Customize Training

We'll design a program for your specific requirements. Tell us your goals and constraints.

3

Implementation

Experience our structured, engaging AI training approach. Watch your team's skills transform.

Thank You!

Empowering Education

We're committed to making AI knowledge accessible to all. Join our growing community of AI practitioners.

Driving Innovation

Our training helps organizations stay competitive. Implement AI solutions that matter.

Building Community

CITS creates networks of AI-empowered professionals. Connect with peers across industries.
